

VIOLETA, JONATHAN L.

JR. Full Stack Developer

jonavioleta19@gmail.com | +639924865960 | BLK 33 LOT 32, SVHS, Sta. Maria Bulacan

SUMMARY

Junior Full Stack Developer with over two years of experience in real-world end-to-end software development. Distinguished by a high degree of technical autonomy, I possess a proven track record of leading full-feature lifecycles and complex system migrations without senior oversight. A multilingual professional and Agile practitioner, I specialize in bridging backend architecture with user-centered design to deliver scalable, high-performance digital products .

WORK EXPERIENCE

JR. Fullstack Web Developer: Juanwork | Freelance : Remote

Apr 2024 – Present

TECH STACK: 1yr Legacy (PHP, JQuery, MySQL, MVC, Paymongo, etc) & 1yr Migration (React, Next, Drizzle ORM, Postgre, FastAPI, Xendit, etc)

During my tenure at Juanwork, I functioned as a core developer with a high degree of technical ownership:

- **Autonomy & Ownership:** Operated independently without senior supervision, taking full accountability for the implementation of complex features.
- **System Architecture:** Developed and optimized core system flows for both freelancer and client-facing modules.
- **Efficiency & Automation:** Engineered original features to enhance system performance and created custom automation scripts to streamline daily workflows.
- **Stakeholder Communication:** Conducted high-level technical demonstrations for stakeholders during conferences to showcase system capabilities.
- **Agile Collaboration:** Actively contributed to daily stand-ups and monthly strategy meetings within an Agile framework.

EDUCATION

College | Bachelor of Science in Information Technology
Bulacan State University

2020 – 2026

Senior High School | Information Communication Technology
Immaculate Conception Polytechnic

2018 – 2020

Junior High School
Parada National High School

2013 – 2018

KEY SKILLS

CORE TECHNOLOGIES:

- PHP (Laravel, Legacy/Native, MVC)
- JS | TS (React, NEXT, Vue, Alpine, jQuery)
- CSS & UI/UX (Tailwind, Bootstrap, Native, Shadcn, Figma, Stitch)
- SQL (MySQL, PostgreSQL)
- Version Control (Git, GitHub, Bitbucket, Git Bash)

Additional Experience:

- Python (Django)
- Java (Netbeans, GUI)
- C (C++, C#, C)

Development & Soft:

- Full Stack Development (Frontend, Backend)
- Agile Development
- Artificial Intelligence (Integration, Modern Practices, Productivity Boost)
- Code Optimization & Cleanup
- Fast Learner, Competitive, Adaptable, Team-Oriented
- Strong Communication & Problem-Solving
- Customer Services
- CI/CD pipelines (e.g., GitHub Actions, Automated)
- Automated testing (unit and integration testing)
- Authentication & security implementation (JWT)
- Database optimization and performance tuning
